

Our environmental goals

Skellefteå Kraft's environmental goals

1. Energy production and sales

Skellefteå Kraft's energy production is to be CO-neutral and all supply of electricity is to be based on green electricity with Guarantees of Origin (GOs).

* CO impact in the production stage when the facility is operational. Materials, erection of facility, operation of transport and maintenance excluded. For Skellefteå Kraft's vision, nuclear energy is also excluded.

2. Sustainable purchasing – environmental perspective

Skellefteå Kraft shall help to reduce negative environmental impact and people's health through sustainable purchasing.

3. Sustainable transport – environmental perspective

Skellefteå Kraft is to have fossil-free transport and shall increase the efficiency of transport usage as far as possible.

4. Higher energy efficiency

Skellefteå Kraft is to increase the energy efficiency of its own operations as much as possible and, through energy-related services, help its customers to increase the energy efficiency of their facilities.

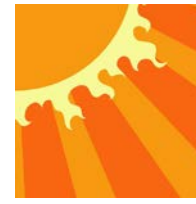

5. Fewer chemical products

Skellefteå Kraft shall continuously reduce the risk of environmental impact as a result of the emission of chemicals from our operations.

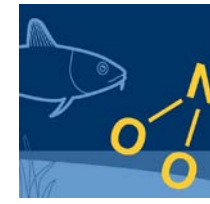

6. Biodiversity

Skellefteå Kraft shall contribute to protecting, restoring and promoting the sustainable use of ecosystems and impact on biodiversity in locations where our operations are in motion.

National environment and quality goals

Reduced Climate Impact

Zero Eutrophication

Natural Acidification Only

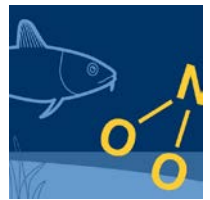

Reduced Climate Impact

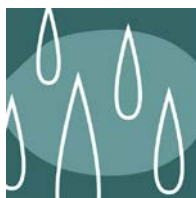

A Non-Toxic Environment

Reduced Climate Impact

Zero Eutrophication

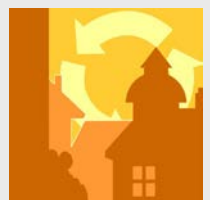

Natural Acidification Only

Clean Air

Reduced Climate Impact

A Good Built Environment

A Non-Toxic Environment

A Good Built Environment

Flourishing Lakes and Streams

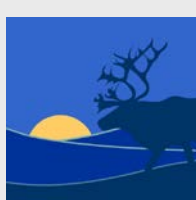

Sustainable Forests

Thriving Wetlands

A Rich Diversity of Plant and Animal Life

A Magnificent Mountain Landscape
