Customer Information

We are happy to share important information about your electricity consumption and the services we offer. We hope you find this information useful and that it helps you make informed decisions about your electricity usage.

43 Your consumption in kWh

Service Delivery Information

Service Delivery Address: Street Address 1, 931 00 Skellefteå
Service Delivery ID: 7359992430000XXX

On skkraft.se/kundinfo, you can read about our different electricity contracts and how they affect your electricity price. You can also find your contract terms, dispute resolution information, how electricity contracts are calculated, and the origin of your electricity. If your consumption is less than 100,000 kWh, you can compare electricity contracts from different suppliers at elpriskollen.se.

For independent advice on how to improve energy efficiency in your home, please visit energiochklimatradgivningen.se. For more information on demand flexibility, please visit ei.se.

For an average apartment, electricity consumption typically ranges from 2,000 to 5,000 kWh per year, depending on the apartment's size. If you live in a house with electric heating, consumption is usually around 20,000 kWh per year, whereas a house with district heating generally consumes approximately 5,000 kWh per year.

46 Where Does Your Electricity Come From?

100 percent
renewable

The electricity you buy from us comes from renewable sources. Our total electricity sales are 100% renewable. For more detailed information, please visit: skkraft.se/ursprung

1. **Invoice Date.** Date when the invoice was created.
2. **Your unique customer number with us.** Please state this when you contact us.
3. **Invoice No. & OCR No.** Must always be stated when paying if you use a different payment slip than the one provided with the invoice. If you pay online, you must enter the OCR number listed at the bottom of the payment slip.
4. **Reference Invoice No.** If the invoice has been credited, this refers to the original invoice.
5. **Reference.** If you requested a reference on your invoice, it will appear here.
6. **Billing Address.** Where the invoice is sent.
7. **Billing Period.** The period covered by this invoice.
8. **Total Electricity Trading Cost, including VAT.** The cost of your electricity consumption during the period covered by the invoice.
9. **Total Electricity Grid Cost, including VAT.** The cost of the electricity network services during the period covered by the invoice.
10. **Due Date.** The payment deadline.
11. **Net Amount.** The total price excluding VAT.
12. **VAT Amount:** 25 percent tax on the net amount.
13. **Total Amount Due.** The total amount payable, rounded to the nearest whole SEK.
14. **OCR Number.** Required when making online payments.
15. **Amount Due.** If marked as "Cancelled," no payment is required. This may be because you have direct debit and the money is automatically withdrawn from your bank account, or that you will receive a refund. We will then pay you money via PlusGiro or direct deposit.
16. **Service Delivery Address.** The address where the electricity is delivered.
17. **Service Delivery ID.** A code identifying your delivery location, which is coupled with the area ID to form a unique identifier.
18. **Area ID.** A three-letter code indicating where in Sweden your service is being delivered.
19. **Bidding Zone.** Indicates which bidding zone your delivery location falls under.
20. **Electricity Contract.** The electricity price agreement you have signed.
21. **Electricity Price.** The price for the electricity you consume, depending on your contract.
22. **Contract Number.** Used internally at Skellefteå Kraft.
23. **Average Spot Price.** The weighted electricity price for the entire previous month on the Nordic electricity market.
24. **Variable Costs.** Includes electricity certificates, balancing responsibility, volume surcharge, origin guarantees, and fees from Svenska kraftnät.
25. **Fixed Surcharge.** Our fixed surcharge per kWh.
26. **Monthly Fee.** A fixed monthly fee that remains the same regardless of how much electricity you consume.
27. **Consumption During the Billing Period.** The kilowatt-hours you have consumed or are estimated to consume during the billing period.
28. **Cost per kWh, excl. VAT.**
29. **Total Electricity Trading Cost.** The total cost of electricity consumption for the billing period.
30. **Subscription Fee.** A fixed fee for access to the electricity grid. The cost depends on your fuse size.
31. **Electricity Transmission.** The actual transmission of electricity through the grid to your home.
32. **Regulatory Fees.** Includes regulatory fees, electrical safety, network supervision, and electricity preparedness fees.
33. **Energy Tax.** A tax on electricity consumption that you pay to the state.
34. **Subscription Cost per Day, excl. VAT.**
35. **Electricity Transmission per kWh, excl. VAT.**
36. **Regulatory Fee per Day, excl. VAT.**
37. **Energy Tax per kWh, excl. VAT.**
38. **Total Electricity Grid Cost.** The total cost of electricity grid services and regulatory fees for the billing period.
39. **Meter Number.** The ID number of the electricity meter, which records your consumption.
40. **Meter Reading.** Displays your meter's total consumption in kilowatt-hours. If you have a time-based pricing contract, this value may be 0.
41. **Estimated Annual Consumption.** Based on your electricity usage over the past 12 months.
42. **Meter Reading Data.** Shows the date and meter reading for the actual measurement. If marked as "Estimated", there was no recorded reading at the time of billing. In such cases, a calculation is made based on your estimated annual consumption, which will be adjusted once an actual reading is available.
43. **Your Electricity Consumption (kWh).** Month-by-month comparison with the previous period.
44. **Information Box.** The content in this section may vary.
45. **Information Box.** The content in this section may vary.
46. **Where Does the Electricity Come From?**
